

ORDERING GUIDE

Mission-Based ITC/AV Service Solutions

A practical guide for Federal customers ordering services from Global Commerce & Services, LLC through NASA Solutions for Enterprise-Wide Procurement VI.

GCS AWARDED CATEGORY

Mission-Based ITC/AV Service Solutions

GCS's SEWP VI offering is focused on Category C. This guide addresses the category awarded to GCS.

CONTRACT

80TECH26D0722

NASA SEWP VI

Ordering period: November 2026 - 2036

CONTRACT HOLDER

Global Commerce & Services, LLC

2439 Manhattan Blvd., Suite 203
Harvey, LA 70058

About NASA SEWP VI

NASA SEWP is a Government-Wide Acquisition Contract (GWAC) providing Federal agencies and approved contractors access to Information Technology, Communication and Audio-Visual solutions and services. SEWP VI supports evolving Federal technology requirements through multiple-award contracts and NASA's established ordering process.

About GCS

Founded in 2000, Global Commerce & Services, LLC (GCS) delivers information technology, cybersecurity, engineering, program management, and mission support services to defense and civilian agencies. GCS is an SBA-certified HUBZone and Woman-Owned Small Business with an ISO 9001:2015-certified Quality Management System.

CATEGORY C SCOPE

Mission IT Services Through GCS

GCS's Category C contract gives Federal customers a streamlined path to acquire customized, mission- and program-level IT services. Product-only requirements are outside Category C.

SB

Category C is exclusively small business.

What You Can Order Through GCS

Application & Software Development

Custom programming, application services, software development, modernization and related mission applications.

Cybersecurity Services

Mission-focused cybersecurity, security engineering and related security services.

Cloud Services

Cloud and hosting services supporting mission and program requirements.

Data & Analytics

Information and data analytics, data processing and analysis services.

IT Operations & User Support

IT operations and maintenance, help desk and call center support.

Network & Telecommunications

Network services, telecommunications, network operations, engineering and design.

Database Services

Database services supporting mission-level IT environments and applications.

Digital & Technical Communications

Digital multimedia and technical communications services.

Innovation & IT Consulting

Innovation services, IT consulting, management and mission-focused technical solutions.

Training & Program Support

In-scope training, program management, ancillary services and supplies supporting the mission solution.

BROAD MISSION-LEVEL SCOPE

NASA identifies these as examples rather than an exhaustive list. Customers may request a NASA SEWP scope review when a requirement needs confirmation.

ORDERING PROCESS

From Requirement to Order

Federal customers use NASA SEWP's ordering tools together with their agency acquisition procedures to compete and place Category C orders.

How to Obtain a GCS Quote

- 1 Define the requirement.** Prepare the statement of work or performance work statement and identify period and place of performance, security or staffing requirements, and the requested response date.
- 2 Use the NASA SEWP Quote Request Tool (QRT).** Include GCS under Category C when the requirement falls within our awarded scope.
- 3 Coordinate with GCS.** For quote coordination or questions related to a QRT request, contact the GCS SEWP Program Manager.
- 4 Issue the order through your agency.** The ordering agency's Contracting Officer issues the Delivery Order. NASA SEWP PMO processes and tracks the order and forwards it to the Contract Holder.

Fair Opportunity

Ordering Contracting Officers are responsible for applying FAR 16.505(b)(1). NASA states that all Contract Holders within the selected category or applicable socioeconomic class must receive fair opportunity, subject to authorized exceptions and required documentation.

GCS Quote Coordination

NOT SURE WHETHER YOUR REQUIREMENT FITS?

NASA SEWP can review a requirement for scope. Send an overview and/or bill of materials to help@sewp.nasa.gov for feedback.

AFTER AWARD

Support Through Resolution

GCS provides a clear point of contact for post-delivery support, order questions, and issue escalation throughout performance.

Post-Delivery Support

GCS will provide installation, technical support, software support, warranty support, and other post-delivery services when those requirements are included in the applicable Delivery Order.

Service levels, acceptance requirements, warranty terms, and support procedures are governed by the Delivery Order and incorporated contract terms.

Problematic Orders

For an order issue, provide the SEWP Delivery Order number, issuing agency, a brief description of the issue, affected deliverable or service, and requested resolution date.

GCS will document the issue, coordinate corrective action, and communicate status through resolution.
